## Volumatic

I am the security controller for Selco Trade centres. I am responsible for the ordering of all security products for our stores.

I have been using Volumatic for the past seven years for purchasing Counter cache units for our tills and trade counters, I also purchase the Count-Easy machines for our cash offices.

I must say that the service from them has been very good and occasions exceptional when I have had products at very short notice.

Loss prevention can be very reactive and I can honestly state that Volumatic as a key supplier to our business are very much geared up to respond accordingly.

I would be happy to recommend them to any prospective customer.

Ronnie Lees

Security Controller
